Name

Intertiki

Feature name and link

Intertiki

Description

Authenticate users and grant them appropriate permissions at a "slave" Tiki site based on user data from an external "master" Tiki site. (This is used at the Tiki project sites, for example.)

Documentation & demo URL links

Used for tikiwiki.org and many *.tikiwiki.org sites.

Notes

UI end user: A->C: there is no information on `tiki-login_scr.php` or similar when `intertiki` is activated, and users can login with @domain info in their usernames. Plus sometimes, it doesn't show modules for users logged as `intertiki` users (as it happened in `edu.tw.o`)
